

KARL BENEDICT K. MALAGA

Computer Science Student

Sta. Ana, Manila | malaga.karlbenedict@gmail.com | 09064166000 | github.com/Malaga-Karl | 🙋 Hi, I'm Karl!

Profile

A 3rd year BS in Computer Science student eager to bridge the gap between theory and practice. A proficient problem-solver who enjoys creating solutions and developing applications. Has a strong foundation in programming, but always want to learn more and upskill in his free time, focusing on Mobile Development with Flutter and Data Science with R and Python.

Education

September 2021 - Present	B.S. in Computer Science – Pamantasan ng Lungsod ng Maynila Consistent Dean's Lister
June 2019 – September 2021	S.T.E.M. Strand – Technological Institute of the Philippines, Manila - Graduated with High Honors - Participated in the DOST-RICE representing TIP Manila

Technologies Used

- Flutter
- Dart
- Firebase
- Git
- Github
- HTML
- CSS
- Javascript
- Python
- Figma
- SQL
- Hostinger
- R

Organizations

Google Developer Student Clubs PLM

- Chief Technology Officer – 2023 - 2024
- Web Development Googler – 2022 – 2023
- Noogler – 2021 - 2022

PLM Computer Science Society

- Member

Experience

Database Integration and Cloud Hosting – PLM ERP System

- Integrated 29 modular systems into a singular database and hosted the said systems that are connected to a login system in Hostinger Cloud services.
- Led a team of 10 members, providing guidance in integration and hosting.
- Assisted individual modules in with their bugs when they transfer to cloud environment.

Project Manager and Python Developer – A-EYE Compiler

- Orchestrated a team of 6 members, disseminated tasks, and managed the entire compiler project from start to finish.
- Ensured correctness of functionalities by providing test scripts for lexical, syntax, and semantic analyses.
- Programmed the *code generation* and *output generation* for the compiler.

Chief Technology Officer - Google Developer Student Clubs PLM

- Coordinated with 5 technological departments: UI/UX, Web Development, Mobile Development, Data, and Cloud Development.
- Collaborated with international and local universities on technological projects.
- Organized events such as hackathons, webinars, and seminars with partner organizations.

Flutter Developer – PLM Mobile App

- Developed fully functional front-end views on multiple screens with Flutter.
- Participated in meetings with co-developers and stakeholders regarding the business process and flow of the application.

UI Designer and Flutter Developer – ASDigi

- Designed high-fidelity UI of a mobile app for parents of children with ASD in Figma
- Implemented fully functional front-end interfaces across multiple screens utilizing Flutter.
- Submitted the project in Google's annual *Solutions Challenge*
